Submitted Questions and Responses

1. The potential exists that the a second release from an unknown source has occurred. How would this affect Seeman Oils PECFA eligibility? **It will not be affected**
2. It appears that analytical data is missing from the report. Was this site monitored quarterly since the SI was completed and if it was can we obtain that data? **The groundwater sampling events occurred on July 7, 1994, July 19, 1995, August 30, 1995, November 7, 1996 and February 25, 1998. The entire groundwater table was sent to those whom purchased the site investigation report.**
